Anne Marie Willmar talked about how there is now a current and available space usage application. If an advisor for some reason hands you an old application remind them that there is a new application available. With the new application there comes an instruction page to help fill out the proper components. The new space use application is five pages long due to it now being multi-useful. In order to reserve a place you must submit the application ten days before the date you wish to have available. The ICC club application is the third page on the application and that will require all appropriate signatures and should work through it with club advisor.

Kory White discussed how there will be an advocacy event in which the Political Science club and SSC club would attend. There will be discussions and speakers talking about propositions nineteen and twenty-three. You will hear both the pro and con sides of the debate along with a Q&A afterwards. Kristy Gray thanked all the clubs for participating on Club Day. She received a lot of positive feedback from faculty and staff.

V. Student Center fee

The speaker will be limited to 5 minutes with 3 minutes for questions.

Ian Mower- a special election will be held on whether or not Santa Rosa Junior college will have a student center. Elections will be held online through the student portal. The student senate says yes to voting on this because it will have a positive turn out for the student body. If voted on yes the space could be used for future events to better student involvement on campus. Currently Petaluma does not have a student center either and this \$1.00 fee could help benefit both the Santa Rosa and Petaluma campuses. The money raised will be governed by the students.

VI. Public comments:

Public comments will be limited to 3 minutes per speaker. Clarifying questions will be entertained, but no discussion. Total public comments will not exceed 10 minutes.

Kory White- emailed clubs the advocacy event list to see who would be able to help.

Simone Burger- talked about having a more structured meeting time and club set up. Pitched the idea of meeting for at least two hours twice a month because it would create a greater sense of importance for the clubs on campus and would cause for more the accomplishments of goals.

Holina Myer wants to help fund raise money for her church. To help her telephone number is (415) 573-7060.

VI. Reports

Reports will be limited to 2 minutes and 30 seconds per speaker. Clarifying questions will be entertained, but no discussion.

Chair

Vice Chair-Issues with the ICC budget has been clarified and it is in the counsels discretion to use as wished.

Advisor-The student senate approved Jude as the online election coordinator. This previous election was the second largest in which the student body participated in. ASP finalized two positions to hire students. Both were of the positions of program assistants for both the Petaluma and Santa Rosa Campus.

VP of Organizations-Re-affirmed the Budget dilemma that was occurring within the ICC. The Petaluma Campus has \$300 and the Santa Rosa Campus has \$500. Secondly announced the 101010 event happening in October where there will be sustainability topics for all to enjoy.

Club/ICC Space committee-Still waiting for approval, and the conference table will soon get set up in the space.

Comedy Show committee-Has everything lined up lined up, now just waiting for approval of the ticket prices. A facebook page will also be soon to come.

Clubs-Sisters From Different Misters new meeting time is every first and third Thursday on the month. Announced Congo week is coming up and it is a time where awareness should be created for those who are present in the Congo. There will be prayers hosted and letter writing sessions to Hillary Clinton. There will also be food and music.

Phi Theta Kappa-The web site information is incorrect.

Social Dance- There will be a dance on October 24th from 6-10pm.

Math club- would like to know how to update email.

ABIS-will be participating in the 101010 event, so is Polinessian Nation, Math and California Politics.

VII. Approval of Constitutions

The speaker will be allowed 2 minutes to present their club's constitution. Clarifying questions will be entertained, but no discussion.

A motion may come forward to allow ABIS to present their constitution

m/s/a

constitution.

VIII. Discussion Items

Discussion will be limited to 1 minute with each speaker able to speak twice, unless further opportunity is approved by the Council.

Unfinished discussion will be revisited at future meetings.

Sustainability

Lecture series-clubs would be having forums or debates about sustainable topics. The Chess Club is interested.

Advocacy event-having someone talk about proposition 23. this bill pretty much eliminates the Clean Air Act.

Campus-wide recycling/composting-SSC is attempting to have a banquet in order to raise money to buy recycling bins for classrooms. For composting a hauler is all that is needed. Use AS committees to help work on composting.

Local business involvement

Use of resources

ICC involvement

Pepperwood leadership retreat-Owned by California Institute of Science in which they collect species and resource data. Have someone from Pepperwood to come to the Santa Rosa campus to answer questions that anyone may have.

Parliamentary procedure-a tandem relation with Pepperwood preserve.

Club representative and Club President-two roles are overwhelming for one person to handle, and instituting a connection between both would be appreciated. The position is best with two people and every club should find a way they could find order.

Standing committees

Finance-There needs to be a committee on this category because it is too much responsibility to handle for the chair. Revising and having a finance is very important.

Code

Club Day-there is a change of procedures. Draft an operating procedure?
Having a protocol would be very helpful.

Change of procedure for Club Day sign ups

Committee to decide protocol for Club Day-Sounds like a good idea but there is concern with time management and physical movement of how things will work out. Club day committee could discuss modification of paper work.

Activities on the Spring calendar

Day Under the Oaks is not going to happen because of budget. Club day? What can the ICC do? Congo week? Softball? Low participation is the bane of this Council's existence. Dodgeball tournament? Assign this to the Activities committee. Committee talked about what the calendar deals with. The Senate needs to approve this today, so we need movement. Meeting on Friday November 26th at a time to be decided later to discuss details dealing with the events next semester. Fencing has talked about fencing tournament at the end of spring. Softball tournament on Friday, student verses staff. Earth Day, good Friday softball tournament, April 22nd. Community service project next semester? We could team up with Re-building Together. Club day 2 weeks into semester, second one 3 weeks after.

Motion to discuss the Comedy Show

This is on Wednesday to fund underprivileged students to attend our school. We need participation, because this is going to be huge if we get our act together. Buy tickets, tell your club members to buy tickets. After this meeting, please meet with Lenney to volunteer for jobs to help with this. The people in authority are looking at us to see if it is worth it to let clubs have this sort of thing on campus.

VII. Discussion

ICC Chair explained that the result of the student referendum are still being debated, nothing official yet.

Also, chair opened a discussion about what to do with the remainder of ICC semester budget. A vote on funds will be held off until next week to accommodate Ed Code. Funds may be spent before the end of the semester, or assigned to a club.

Ideas for spending money include throwing an end-of-year/semester party, or splitting money between club trust fund and party.

Lynn Streater reminds everyone that the last meeting is on Dec. 6th.

Julia Fernandez volunteered to look into how a pizza party might be organized (what it would cost, the logistics) and report back to the council next meeting (Dec. 6th). Food from outside the school would have to be approved by Fresh & Natural.

Calendar of Event -- A club day will be scheduled on Jan 26 and Feb 9th. The date for the school wide softball tournament will be confirmed by next meeting. Dodgeball will not be on the calendar due to issues regarding facility scheduling. A Best Club Award will be arranged by Kory.
